QUICK GUIDE TO TOPANGA SCHOOL TRAIL

DESCRIPTION: Part of the Topanga Park system, this trail is used to access Hondo Canyon via the Old Canyon Road. The trail is a lightly-traveled section of the Backbone Trail and becomes the Dead Horse Trail starting east of the parking lot located on Entrada Road. The trail itself is a fairly mild hike, but it does require two street crossings, with no crosswalks or lights. Proceed with caution as the trail also contains poison oak.

DIRECTIONS: From the PCH, take Topanga Canyon Blvd. north for about 4.7 miles. Make a slight right turn onto Entrada Road. After about 100 feet, turn into Topanga State Park parking lot. Take the Backbone Trail west, cross Topanga Canyon Boulevard to Greenleaf Drive.
